diffusion of the colorated specialist, Dr. 6. Ivan Pohek, assisted by a competent copps of specialists. All the doctors connected with the institute are of high professional attainment; men way up in their respective branches, who have expended large amounts of money and time on their education, and who come now before the public, offering them superior services at reasonable rates. The novel feature of their treatment is that they do not use any of the old nameanting remedies, but confine themselves strictly to the Al Raloidal remedies in the smallest doses, which produce miraculous and immediate effects. The study of specialties was the life work of the staff, and it is only by close attention to their respective studies in private practice, as well as in the hospitals of America and Europe, that they have attained the degree of profesioncy they possess. It is simply wonderful to see the results obtained in the treatment of disease by the ferman Medical Institute. Man and woman, who have been given up as incurable, were again restored to perfect health, and the business of the institute is didy on the increase. Their offices are becoming crowded with patients.

AN ALLEGED COUNTERPEITER.

Frank Thompson Held to the Cuited States Prank Thompson was given a preliminary hearing yesterday morning before I mited States Commissioner Perry on the charge of passing counterfeit money. He was bound over to the United States district court at Topska in the sum of \$1.60. As he was unable to furnish bond he was committed to the county jail. He will be removed to the county jail of Shawnes county Wednesday.

Thompson was a member of a gang of alleged counterfeiters arrested in Toal-a-Loup by the authorities on November 4. Three other members of the gang were tried, but the prosecution failed to produce sufficient evidence against them to warrant the court in binding them over. It was proved that Thompson was the leader of the gang. District Court.
